

Recently treated cases at Angle House. (Fig 1)

Before

After

Case1: Patient concerned about space between front teeth.

Case 2: Protruding teeth. This patient fell and damaged his front teeth as they were sticking out.

Case 3: Crowded teeth. Patient did not smile as worried about showing crooked teeth

Case 4: Reverse bite. Upper front teeth sitting behind lower ones.

Above pictures are some common examples of patient concerns we treat daily in our practice.
